

Project Title: Create a Mobile App for Our Product

Description:

The project involves developing a mobile application to complement our main product. The app should provide users with the following features:

- User registration and login
- Product catalog with detailed descriptions and images
- Shopping cart and checkout process
- Order history and tracking
- User profile management
- Push notifications for updates and promotions
- Integration with payment gateways
- Customer support chat

Technical Requirements:

- Platforms: iOS and Android
- Frontend: React Native or Flutter
- Backend: Firebase or AWS Amplify
- Database: Firebase Firestore or AWS DynamoDB
- Security: Secure user authentication, data encryption
- Payment Integration: Stripe or PayPal
